EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment, which places this application in condition for allowance. During a telephone conversation conducted on 4/19/2006, Mr. Andrew Chu requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 080879 the required fee of \$60.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 46, Lines 21-22: "activatable by an Allen-type wrench" has been changed to --activatable by an Allen wrench--.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Figures 6-8: The cross hatching for the various sectioned components will all be shown with clear metal cross-hatching (as in Figures 12 and 13) and any superfluous and

unnecessary lines need to be removed from these figures. Figure 8, needs to be treated as an exploded view having brackets to show association.

Figure 9: There are 3 views of the same feature of the apparatus in one figure. Figure 9 has been deleted and replaced with three separate figures (9A-9C; See attached Examiners Figure) for each of the three views shown in the instant Figure 9.

Accordingly, in the specification, Paragraph [0026] has been deleted and replaced with the following:

-- [0026a] Figure 9a: A side view of the eccentric.--

-- [0026b] Figure 9b: A top view of the eccentric.--

-- [0026c] Figure 9c: A diagram of the eccentric and lateral legs in active connection.--

Additionally, on Page 10, Paragraph [0044], Line 1, "In Figure 9" has been changed to -- In Figures 9a-9c--.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
